**Key definitions and a list of the topics in this series can be found at the end of this FCS Sheet.**

## Are We Really Family-Centred?

### Checklists for Families, Service Providers, and Organizations

## Relevance

This series of FCS Sheets has explored many topics related to family-centred service. The following **checklists** bring together key strategies presented throughout the series. The checklists are designed to encourage families, service providers, and organizations to think about the things that they do (or could do) to promote family-centred service.

## Strategies for Using the Checklists

1. Review the items in the following checklists. When doing so, note that:
  - Every family-centred relationship is different. Not all of the items will apply in all situations – there may be some things that do not apply to you or your organization.
  - These checklists do not contain all of the ideas that are useful in family-centred relationships. The items represent key strategies in different areas and are written to stimulate your thinking and discussion with others.
2. Select and complete the checklist that is written for the group to which you belong (family, service provider or representative of an organization).
3. Review the checklists written for the other two groups.
4. Discuss the items in the checklists with others. Learn about the things that they value in family-centred relationships and work together to strengthen family-centred practices.

As stated above, the checklists in this FCS Sheet are just a starting point to get you thinking about things that support family-centred services – they are not designed for doing a formal evaluation. If you are interested in formally evaluating family-centred service, there are a number of tools that have been developed for this purpose. The following measures are examples of ones that have been developed and tested by our research centre.

- **Measure of Processes of Care (MPOC)** – The MPOC (King et al., 1996) is designed to be completed by the child's parent (or primary caregiver). Parents are asked to rate the "extent to which" service providers do specific

**behaviours** that reflect important aspects of family-centred service. A 20-item version and a 56-item version are available. Both have been found to be reliable and valid.

- **Measure of Processes of Care for Service Providers (MPOC-SP)** – The MPOC-SP (Woodside et al., 2001) is similar to the MPOC, but is designed to measure service providers' perceptions of their own family-centred **behaviours**. The MPOC-SP has 27 items and it has been found to be reliable and to demonstrate evidence of discriminative validity.
- **Measure of Beliefs about Participation in Family-Centred Service (MBP-FCS)** – The MBP-FCS (King et al., in press) measures an individual's **beliefs** about family-centred service. The MBP-FCS is appropriate for use with parents and service providers. There is preliminary evidence of this measure's construct validity and it shows promise for use as a discriminative measure.

## Summary

Whether you decide to use an informal checklist or a more formal measure of family-centred service, we hope you take the time to think about your interactions with others and your beliefs related to family-centred service. An increased awareness of these two things can help you identify things that you can do to better support this approach to service delivery.

For more information about MPOC, MPOC-SP or MBP-FCS, please contact our centre – *CanChild* Centre for Childhood Disability Research or visit our website at [www.canchild.ca](http://www.canchild.ca)

...negotiate solutions with families when there is a difference of opinion?		#11	Negotiation: Dealing effectively with differences
...present and explain all options to the family to allow them to make decisions?		#12	Making decisions together: How to decide what is best
...collaborate in goal setting with the child, the family and others (such as pre-school or school personnel)?		#13	Setting goals together
...help parents identify and navigate through the "systems" when they are advocating for their child?		#14	Advocacy: How to get the best for your child
...develop an action plan that outlines what tasks need to be done, who will do them, and timelines?		#15	Getting the most from appointments and meetings
...communicate openly and frequently with parents about things that are happening at school?		#16	Fostering family-centred service in the school
...help families prepare for the first formal appointment or assessment by giving them a list of questions to consider?		#17	Family-centred strategies for waiting lists

## Family-Centred Service – A Checklist For Organizations

Does your organization...	X	For more information, refer to FCS Sheet...	
...demonstrate a commitment to family-centred service by including the term and relevant concepts in the organization's mission statement and/or vision?		#1	What is family-centred service?
...provide a venue for families and service providers to talk about what family-centred service means to them?		#2	Myths about family-centred service
...promote the use of family-centred service at your organization by sharing research evidence on family-centred service with service providers and families?		#3	How does family-centred service make a difference?
...monitor the amount of time service providers need to carry out family-centred practices and assign caseloads accordingly?		#4	Becoming more family-centred
...promote staff awareness of other community resources?		#5	10 things you can do to be family-centred
...have a newsletter and/or a bulletin board for parents, with a section including family success stories?		#6	Identifying and building on parent and family strengths and resources
...provide support for families to connect with other families (for example, parent discussion groups, information session, or parent to parent linking)?		#7 #14	Parent-to-parent support Advocacy: How to get the best for your child
...get feedback from families and respond to their concerns?		#8	Effective communication in family-centred service
...use person-first language in all of your organization's documentation?		#9	Using respectful behaviours and language
...include families on the Board of Directors, in steering committees, and in job interview panels?		#10	Working together: From providing information to working in partnership
...have a policy that outlines steps that families and service providers can use to resolve differences of opinion, including key individuals in the organization who can facilitate the process?		#11	Negotiation: Dealing effectively with differences
...have a resource centre for parents and other family members, which includes information about resources in the community?		#12	Making decisions together: How to decide what is best
...utilize policies and practices to implement collaborative goal setting between service providers and families?		#13	Setting goals together
...allow service providers to meet with families at times and locations that are most convenient for the family?		#15	Getting the most from appointments and meetings
...access all resources that will support a child at the school including the child's family and the community?		#16	Fostering family-centred service in the school
...implement intake policies that are support families when they are seeking and waiting for services?		#17	Family-centred strategies for waiting lists

## Key Definitions

\*\*\*\*

**Family-Centred Service** – Family-centred service is made up of a set of values, attitudes and approaches to services for children with special needs and their families

Family-centred service recognizes that **each family is unique**; that the family is the **constant in the child's life**; and that they are the **experts on the child's abilities and needs**.

The family works with service providers to make informed decisions about the services and supports the child and family receive.

In family-centred service, the strengths and needs of all family members are considered.

\*\*\*\*

**Service Provider** – The term service provider refers to those individuals who work directly with the child and family. These individuals **may** include educational assistants, respite workers, teachers, occupational therapists, physiotherapists, speech-language pathologists, service coordinators, recreation therapists, etc.

\*\*\*\*

**Organization** – The term organization refers to the places or groups from which the child and family receive services. Organizations **may** include community programs, hospitals, rehabilitation centres, schools, etc.

\*\*\*\*

**Intervention** – Interventions refer to the services and supports provided by the person who works with the child and family. Interventions **may** include direct therapy, meetings to problem solve issues that are important to you, phone calls to advocate for your child, actions to link you with other parents, etc.
