

# Family Engagement in Research

## Certificate of Completion

### Course Details

This course is for researchers (graduate students, research staff, investigators, etc.) and family members (parents, siblings, caregivers, etc.) who have an interest in child health research. This unique course brings together researchers and families in a fully integrated online course.

### Learners will gain a better understanding of:

- Family partnership in research (why is it important)
- How to partner with families throughout the research process
- Barriers/facilitators to partnership
- Ethics surrounding partnership
- Tools and resources to support and evaluate partnership activities

**By the end of the course, learners will be ready to partner on research projects.**

### Course Dates

**Fall Cohort:**  
Sept 19 – Nov 27, 2022

**Winter Cohort:**  
Jan 16 – Mar 26, 2023

### Course Location & Length

- Online via McMaster University Continuing Education
- 10 weeks

### Course Completion

Earn a McMaster University/CanChild/Kids Brain Health Network Certificate of Completion.
